

Nomenclature of AI

Monday, April 15, 2024 2:44 PM

[What is a Prompt Engineering?](#)

Prompt Engineering is a process of structuring your text so that can be easily understood by Generative AI model to provide the optimal answer. And that can be done using the Tokens

In General Everyday is single word for humans, but for Generative AI Every day consist of two words Every and Day.

Or

Asking GPT to provide data in Excel format or in format that can be easy for you to paste into an excel sheet.

Here is a Prompt Example link - <https://platform.openai.com/examples>

[What is Zero shot learning?](#)

Zero Shot learning is a mechanism to prompt AI with one prompt and let the Model find out the answer from trained data set. Zero Shot you do not need a stop sequence.
